

Greetings:

Thank you for allowing me the time to introduce my business to you.

We are the last remaining commercial reloader in the State of Indiana, and have provided superior quality remanufactured ammunition and top-notch customer service since December 20th, 1986.

We have clients worldwide and many local, state and Federal Law Enforcement Agencies, such as the U.S. Marshal's S.O.G. Training Facility, Boston College Police, Calumet City Illinois Police, Cicero Illinois Police, Porter County Indiana Police & the Gary Indiana Police Departments to name just a few.

You will find a complete listing of the Police Departments that have purchased our ammunition on our web page!!

We pride ourselves on providing not only competitive pricing, but service that goes above and beyond what our competitors offer. We can offer delivery service (which includes the picking up of fired casings), quick lead times, and can fulfill any other special requirements that your department might need.

We offer a full range of ammunition, which includes Lead, Full Metal Jacket, Jacketed Hollow Points, and the Total Copper Jacket Bullet. Our frangible ammunition consists of compressed tin and copper, virtually eliminating ricochet and airborne dust thus protecting the environment and the user's safety with lead free components.

Our ammunition is made entirely from the highest quality components, using state-of-the-art equipment for processing and manufacturing, and is built to the same specifications as the finest ammunition on the market.

As a former police officer, I have both the understanding of law enforcement and the importance of quality and reliability in training and qualification ammunition. I take personal pride in ensuring that every order that we ship exceeds the quality that our clients expect.

Thank you again for the opportunity to introduce our company. I would be happy to send you more information or samples.

I would appreciate you taking the time to review our product line. You may call me at 888-735-2400 or e-mail me at sales@precisioncartridge.com for further information. Please review our products and customer testimonials at www.precisioncartridge.com.

Best wishes and I look forward to working with you!
